Dear Dr. Shugert,

Find enclosed Pulliam data, which I have found very interesting, and again I want to thank you for your kindness and interest. A busy man like you has so little time they can call their own.

Perhaps you would be interested to know I have served on several committees for Rollins College, Winter Park, Fla., and interested in the college education of several young people. At the present time I have a protege in Richmond College preparing to take a M. D. degree, so far he has proven very worthy of all I have done for him.

In trust by our next summer vacations, we will be able to exchange more Pulliam data, and that in person. More than likely I will go to New York and will surely stop by and get acquainted with both you and your mother. In the meantime I shall try to contact the various Pulliam's in Ashville, Raliegh, and Richmond. I have a very fine genealogists in Richmond doing some work for me at the present time. Genealogy is rather a new hobby of mine, not over six years, but my cousin in Maryland has worked at some of our lines for 35 years: Mr. Pottinger is very interesting and I trust you both will meet sometime in the near future.

Wishing you a very restful and happy summer, and trusting our continued contacts will be just as pleasant and interesting in the future, I am

Sincerely,

*Commie Maguire*
